3. Because these claims arise out of Plaintiff(s)' alleged injuries resulting from, relating to, and arising out of the September 11, 2001 terrorist-related aircraft crashes, the United States District Court for the Southern District of New York has original and exclusive jurisdiction over the Action. Specifically in response to the tragic events of September 11, 2001, Congress enacted the ATSSSA on September 22, 2001, which created a comprehensive scheme addressing numerous matters resulting from the attacks. Section 408(b) of the ATSSSA contains a broad jurisdictional provision centralizing in the Southern District of New York the resolution of any litigation claims resulting from or relating to the events of September 11, 2001:

The United States District Court for the Southern District of New York shall have original and exclusive jurisdiction over all actions brought for any claim (including any claim for loss of property, personal injury, or death) resulting from or relating to the terrorist-related aircraft crashes of September 11, 2001.

Pub. L. No. 107-42, § 408(b)(3), 115 Stat. 230, 241 (2001).

4. In addition, Section 408(b)(1) of the ATSSSA creates a federal cause of action over which this Court has original jurisdiction. It provides:

There shall exist a Federal cause of action for damages arising out of the hijacking and subsequent crashes of American Airlines flights 11 and 77, and United Airlines flights 93 and 175, on September 11, 2001. Notwithstanding section 40120(c) of title 49, United States Code, this cause of action shall be the exclusive remedy for damages arising out of the hijacking and subsequent crashes of such flights.

Pub. L. No. 107-42, § 408(b)(1), 115 Stat. 230, 240-241 (2001).

5. Furthermore, In *In re: WTC Disaster Site*, the United States Court of Appeals for the Second Circuit conclusively recognized the original and exclusive jurisdiction in the Southern District of New York for claims relating to the terrorist-related aircraft crashes of September 11, 2001. See *In re: WTC Disaster Site*, 414 F.3d 352, 375–380 (2d Cir. 2005).

6. Based on the foregoing, the Action is removable from the Supreme Court of the State of New York, County of New York to the United States District Court for the Southern District of New York pursuant to 28 U.S.C. § 1441.

7. Defendant's Notice of Removal is timely as the Notice of Removal will be filed within thirty days of Defendant's receipt of the Summons with Notice. *See* 28 U.S.C. §1446(b).

8. A copy of this Notice of Removal will be filed with the Supreme Court of the State of New York, County of New York, and will be served on Plaintiff(s)' counsel pursuant to 28 U.S.C. § 1446(d).

9. Pursuant to Rule 81.1(b) of the local civil rules for the Southern District of New York, Defendant will forward a copy of all records and proceedings in the Supreme Court of the State of New York, County of New York within 20 days.

10. Defendant reserves the right to amend or supplement this Notice of Removal.

WHEREFORE, Defendant hereby removes to this Court the action now pending against it in the Supreme Court of the State of New York, County of New York, bearing Index No. 07109969.

5. That on July 19, 2007, an application by Order to Show Cause to permit the plaintiff to file a late Notice of Claim and/or to deem the Notice of Claim filed on July 19, 2007 as timely filed *nunc pro tunc*. That motion is presently pending.

FACTUAL BACKGROUND

6. On September 11, 2001 two airplanes hijacked by terrorists were flown into the World Trade Center Towers. Within hours the buildings collapsed resulting in the deaths of thousands of people. The City immediately took control of the **World Trade Center site and the Lower Manhattan area**. (For purposes of this Complaint, the Lower Manhattan includes the area south of Canal Street down through Battery Park.)

7. "The combustion of more than 90,000 L of jet fuel released a dense and intensely toxic atmospheric plume containing soot, metals, volatile organic compounds and hydrochloric acid. The collapse of the towers pulverized cement, glass and building contents and generated thousands of tons of particulate matter composed of cement dust, glass fibers, asbestos, lead, polycyclic aromatic hydrocarbons (PAHs), polychlorinated biphenyls (PCBs), organochlorine pesticides, and polychlorinated furans and dioxins." Health and Environmental Consequences of the World Trade Center Disaster, Environmental Health Perspectives Volume 112, Number 6, May 2004, <http://www.ehponline.org/members/2004/6702/6702.html>.

8. As a result of the collapse of the World Trade Center towers, the air circulating in and around the Lower Manhattan area as well as the dust particles that came to settle in the residences and office buildings located in the Lower Manhattan area became contaminated with numerous hazardous substances such as asbestos, lead,

benzene, mercury, and other deadly and dangerous toxins.

9. Upon information and belief, the City of New York started testing the level of hazardous toxins, including asbestos, that were circulating in the air in Lower Manhattan on September 12, 2001, only one day following the collapse of the World Trade Center Towers. Upon information and belief, the City of New York received the results of these tests within hours of completion which showed that the air in the Lower Manhattan area was dangerous and/or not safe for inhalation and/or other contact.

10. Upon information and belief, the City of New York hid this information from the public at large, including the Plaintiff and the Lower Manhattan community.

11. Upon information and belief, the City of New York continued to test the quality of the air and settled dust particles in the Lower Manhattan area for many months following September 11, 2001. Notwithstanding the unfavorable results that these tests put forward, the City of New York continued to advise Lower Manhattan residents and workers, and the public at large, that the air in and around Lower Manhattan was safe for inhalation and/or other contact.

12. Upon information and belief, in an effort to reassure the Lower Manhattan residents and workers that the air circulating in the Lower Manhattan area was safe, the City of New York altered the unfavorable results of the aforementioned tests, which clearly showed that the air and settled dust particles in the Lower Manhattan area were contaminated with numerous hazardous toxins.

13. Upon information and belief, the City of New York improperly tested the quality of the air and settled dust particles in the Lower Manhattan area and improperly

analyzed the data that it did receive.

14. The City of New York provided inaccurate information about the true dangers and risks of the quality of the air and settled dust particles in the Lower Manhattan area to the Plaintiffs, the Lower Manhattan Community and the public at large, in an effort to persuade Lower Manhattan residents and workers to return to the Lower Manhattan area.

15. Plaintiff WILLIAM ZAPPOLO, relying on the false statements made by the City of New York about the quality of the air and settled dust particles in the Lower Manhattan area, began to work in the Lower Manhattan area beginning in December 2001.

16. Plaintiff WILLIAM ZAPPOLO was exposed to the hazardous toxins that had contaminated the air and settled dust particles in the air Lower Manhattan area.

17. Plaintiff, WILLIAM ZAPPOLO, suffered severe and personal injuries as a result of his exposure to the hazardous toxins circulating in the Lower Manhattan area, including sarcoidosis and pulmonary fibrosis, which were diagnosed on April 20, 2006.

FIRST CAUSE OF ACTION
Negligence

18. Plaintiffs repeat, reiterate, and reallege each and every allegation contained in each of the foregoing paragraphs inclusive, with the same force and effect as if hereinafter set forth at length.

19. The negligence of the Defendants, its agents, servants, and/or employees, included but was not limited to the following acts or omissions:

- a. Negligently failing to adequately and correctly warn the Plaintiffs, the Lower Manhattan Community and/or the public in general of the dangers and serious health and/or safety concerns of the quality of the air and settled dust particles in the Lower Manhattan area following September 11, 2001, and failing to provide adequate instructions regarding safety precautions to be observed by persons who reside and/or work in the Lower Manhattan area;
- b. Negligently representing to the Plaintiffs, the Lower Manhattan Community and/or the public in general, that the air and settled dust particles in the Lower Manhattan area were safe for inhalation and/or other contact, when it was, in fact, unsafe;
- c. Not conducting sufficient testing of the air and settled dust particles in the Lower Manhattan area to determine whether the aforementioned air and settled dust particles were in fact safe for inhalation and/or other contact, in that Defendant knew or should have known that said air and settled dust particles were unsafe and unfit for inhalation and/or other contact;
- d. Misrepresenting the many risks of exposure to the hazardous toxins contaminating the air and settled dust particles in the Lower Manhattan area; in knowing that these toxins could cause serious and grave injury to anyone exposed to such toxins; and

e. Failing to adequately inform Plaintiffs, the Lower Manhattan Community and/or the public in general of the serious dangers and risks associated with exposure to the air and settled dust particles in the Lower Manhattan area.

20. As a direct and proximate result of the aforementioned negligence on the part of the Defendant, Plaintiff was caused to sustain severe and grievous personal injuries, as set forth herein, and incurred past and will incur future medical expenses, lost wages (past and future), and all other damages available under the law.

21. Based upon the foregoing, it is further alleged that Defendant's conduct, actions, and/or inactions amount to and were in fact acts/actions of negligence per se, and Plaintiff sustained injuries and damages as set forth herein as a result of the same by Defendant.

22. By reason of the foregoing, Plaintiffs have been damaged as against Defendant in the sum of TEN MILLION DOLLARS (\$10,000,000.00) in compensatory damages and TEN MILLION DOLLARS ((\$10,000,000.00) in punitive damages.

SECOND CAUSE OF ACTION
Fraudulent Misrepresentation

23. Plaintiffs repeat, reiterate, and reallege each and every allegation contained in each of the foregoing paragraphs inclusive, with the same force and effect as if hereinafter set forth at length.

24. The Defendant falsely and fraudulently represented to the Lower Manhattan Community, the Plaintiffs and to the public in general, that the quality of the air and settled dust particles in the Lower Manhattan area to which Plaintiff was exposed was safe

for inhalation and/or other contact.

25. The representations made by Defendant were, in fact, false.

26. When said representations were made by Defendant, Defendant knew those representations to be false, and it willfully, wantonly and recklessly disregarded whether the representations were true.

27. These representations were made by said Defendant with the intent of defrauding and deceiving the Plaintiffs, the Lower Manhattan Community, and the public in general, and were made with the intent of inducing the Plaintiffs, the Lower Manhattan Community, and the public in general to return to the Lower Manhattan area under a false sense of security, under the belief that the quality of the air and settled dust particles in the Lower Manhattan area to which Plaintiff was exposed was safe for inhalation and/or other contact, all of which evinced a callous, reckless, willful, depraved indifference to the health, safety and welfare of the Plaintiff.

28. At the time the aforesaid representations were made by the Defendant and, at the time that the Plaintiff worked in the Lower Manhattan area, the Plaintiff was unaware of the falsity of said representations and reasonably believed them to be true.

29. In reliance upon said representations, the Plaintiff was induced to and did work in the Lower Manhattan area, thereby sustaining severe and permanent personal injuries, and/or being at an increased risk of to sustain severe and permanent personal injuries in the future.

30. Said Defendant knew and was aware or should have known that the quality of the air and settled dust particles in the Lower Manhattan area had not been sufficiently

tested, and that it was not safe for Lower Manhattan residents and/or workers to return to the Lower Manhattan area.

31. Defendant knew or should have known that the hazardous toxins contaminating the air and settled dust particles in the Lower Manhattan area would cause severe and grievous injury to persons exposed to such toxins, more specifically the Lower Manhattan residents and/or workers. Defendant acted fraudulently, wantonly and maliciously to the detriment of the Plaintiff herein.

32. As a result of the aforementioned fraudulent conduct by Defendant, Plaintiff was caused to sustain severe and grievous personal injuries, as set forth herein, and incurred past and will incur future medical expenses, lost wages (past and future), and all other damages available under the law.

33. By reason of Defendant's actions as aforementioned, Defendant is liable to Plaintiffs.

34. By reason of the foregoing, Plaintiffs have been damaged as against the defendant in the sum of TEN MILLION DOLLARS (\$10,000,000.00) in compensatory damages and TEN MILLION DOLLARS (\$10,000,000.00) in punitive damages.

THIRD CAUSE OF ACTION
Fraudulent Concealment

35. Plaintiffs repeat, reiterate, and reallege each and every allegation contained in each of the foregoing paragraphs inclusive, with the same force and effect as if hereinafter set forth at length.

36. At all times during the course of dealing between Defendant and Plaintiff,

Defendant misrepresented that the air in the Lower Manhattan area was safe to breathe.

37. Defendant knew or was reckless in not knowing that its representations were false.

38. In representations to Plaintiffs, the Lower Manhattan Community and/or the public in general, Defendant fraudulently concealed and intentionally omitted the following material information:

- a. The air and settled dust particles in the Lower Manhattan area were safe for inhalation and/or other contact;
- b. That Defendant was aware of the dangers posed by exposure to the air and settled dust particles in the Lower Manhattan area.
- c. That the air and settled dust particles in the Lower Manhattan area were contaminated with numerous hazardous toxins;
- d. That exposure to the hazardous toxins contaminating the aforementioned air and settled dust particles was dangerous and could cause serious and grave injuries to anyone exposed to such toxins;
- e. That persons exposed to such toxins need to be monitored more regularly than persons not exposed;
- f. That safety testing of the air and settled dust particles in the Lower Manhattan area clearly demonstrated that the air and settled dust particles in the Lower Manhattan area were contaminated with numerous hazardous toxins, and, thus was unsafe for inhalation and/or other contact;
- g. That persons should not reside and/or work in the Lower Manhattan area

because the air and settled dust particles were contaminated with numerous hazardous substances; and

- h. That persons residing and/or working in the Lower Manhattan area did not need to wear any protective mask and/or other article to protect themselves from exposure and/or other contact with the air and settled dust particles in the Lower Manhattan area.

39. Defendant was under a duty to disclose to Plaintiffs, the Lower Manhattan Community and/or the public in general the dangerous nature of the hazardous toxins contaminating the air and settled dust particles following the collapse of the World Trade Center Towers on September 11, 2001.

40. Defendant had access to material facts concerning the quality of the air and dust particles in the Lower Manhattan area and the propensity of these hazardous toxins to cause serious and dangerous side effects, and hence, cause damage to persons who were exposed to the hazardous toxins, including the Plaintiff herein.

41. Defendant's concealment and omissions of material facts concerning, inter alia, the quality of the air and settled dust particles in the Lower Manhattan area, was made purposely, willfully, wantonly, and/or recklessly, to mislead Plaintiffs, the Lower Manhattan Community and/or the public in general into believing that they could reside and/or work safely in the Lower Manhattan area.

42. Defendant knew that Plaintiff, the Lower Manhattan Community, and the public in general had no way to determine the truth behind Defendant's concealment and omissions, and that these included material omissions of facts surrounding the quality of

the air and settled dust particles in the Lower Manhattan area.

43. Plaintiffs reasonably relied on Defendant's concealment and/or omissions of fact.

44. As a result of the aforementioned fraudulent concealment by Defendant, Plaintiff was caused to sustain severe and grievous personal injuries, as set forth herein, and incurred past and will incur future medical expenses, lost wages (past and future), and all other damages available under the law.

45. By reason of Defendant's actions as aforementioned, Defendant is liable to Plaintiffs.

46. By reason of the foregoing, Plaintiffs have been damaged as against the defendant in the sum of TEN MILLION DOLLARS (\$10,000,000.00) in compensatory damages and TEN MILLION DOLLARS (\$10,000,000.00) in punitive damages.

Negligent Misrepresentation

47. Plaintiffs repeat, reiterate, and reallege each and every allegation contained in each of the foregoing paragraphs inclusive, with the same force and effect as if hereinafter set forth at length.

48. Defendant had a duty to represent to the Plaintiffs, the Lower Manhattan Community and/or the public in general that the quality of the air and settled dust particles had been tested and found to be safe.

49. The representations made by Defendant were, in fact, false.

50. Defendant failed to exercise ordinary care in the representation of the

quality of the air and settled dust particles in the Lower Manhattan area in that Defendant negligently misrepresented that there were not numerous hazardous toxins contaminating the air and settled dust particles in the Lower Manhattan area which placed the public at a high risk of unreasonable, dangerous side effects.

51. Defendants breached their duty in representing that the air and settled dust particles in the Lower Manhattan area were safe for inhalation and/or other contact and in failing to alert the Plaintiffs, the Lower Manhattan Community, the public in general to the dangers and risks that the contaminated air and settled dust particles posed to their health.

52. Said Defendant knew and was aware or should have known that there were numerous hazardous toxins contaminating the air and settled dust particles in the Lower Manhattan area and that exposure to these toxins would be highly dangerous to persons residing and/or working in the Lower Manhattan area.

53. As a result of the aforementioned negligent representations by Defendant Plaintiff was caused to sustain severe and grievous personal injuries, as set forth herein, and incurred past and will incur future medical expenses, lost wages (past and future), and all other damages available under the law.

54. By reason of Defendant's actions as aforementioned, Defendant is liable to Plaintiffs.

55. By reason of the foregoing, Plaintiffs have been damaged as against the defendant in the sum of TEN MILLION DOLLARS (\$10,000,000.00) in compensatory damages and TEN MILLION DOLLARS (\$10,000,000.00) in punitive damages.

59. As a result of Defendant's investigations and testing of the air, or lack thereof, Defendant intentionally omitted certain results of testing to the Plaintiffs, the Lower Manhattan Community and/or the public in general
